Rest Hours

SDSD Crew Rest Hours Management is designed to monitor and manage crew rest hour records in compliance with STCW 2010, ILO, MLC, and OCIMF recommendations.

Key Features include:

✔ Option to prepare crew list

✔ Option to enter daily rest hours and record shipboard working arrangements

✔ Option to identify rest hour breaches and non-conformities

✔ Standard reports in pdf, excel and html

✔ Copy records provision for quick entry

✔ User friendly pop-up warning messages to avoid incorrect entries

✔ Provision to send data to office for further analysis

✔ Option to use the application in LAN (multiple computers)

✔ Option to enter ship particulars

✔ Designed with multiple user levels

✔ Unlimited user access (logins)

✔ Ability to lock records to avoid misuse of data

✔ Flexible application - customize reports and include analytical tools based on customer requirements.

✔ Absolute tracking tool to prepare for inspections and audits

With SDSD Crew Rest Hour Management, it is quick and easy to maintain the onboard work arrangements and record crew rest hours.

The online application provides comprehensive analytic tools to analyze non-conformities and Rest Hour breaches.

SDSD has supported the maritime industry with software and services since 1983
