

Planned Maintenance System

SDSD's Planned Maintenance System (PMS) is designed to proactively manage the maintenance of vessels, resulting in efficient, cost-effective operations and maximized earnings for ship owners and Managers. SDSD's PMS software is type approved by BUREAU VERITAS.

The MAMS system provides a comprehensive web based **Planned Maintenance System**. The system is fully integrated with machinery, inventory, maintenance jobs and surveys, and provides comprehensive fleet wide maintenance status.

Proactive auto-alerts covering a variety of maintenance related processes ensure that maintenance issues are tracked and efficiently managed.

The module provides maintenance related reports generated by simple clicks, helping support informed decision making and factual analysis.

Superintendents and Technical Fleet Managers can monitor processes via iPhone, iPad, Android or Windows device anytime anywhere.

Key features include:

- ✓ Inventory management and spare parts
- ✓ Maintenance job details and critical job details
- ✓ Maintenance job scheduler
- ✓ Option to complete jobs and view the history
- ✓ Option to view ROB, enter the ROB and consumption of all spare inventory items
- ✓ Option to enter class survey and complete class survey items
- ✓ Defect tracking items (repair jobs)
- ✓ Monitor the vessel certificates
- ✓ Enter inspections (ISM, ISPS, and Superintendent Inspection) and follow-up inspections
- ✓ Condition monitoring of all machineries

PMS data, inventory and spares - SDSD Data Entry Services

We offer PMS database solutions and management services. Our team of analysts have over 10 years PMS and wide marine experience and will eradicate duplicates and errors, ensuring your data is fit for purpose.

Our secure and accurate processes can handle data entry from any type of records including Word, Excel, Access or SQL databases, technical drawings, scanned documents.

SDSD has supported the maritime industry with software and services since 1983

Book a demo today, and also find out how we can help you provide comprehensive fleet wide maintenance status with PMS
