

# CHARTER PARTY EDITOR

Draft, edit and manage contracts all in one place.

The CPE is a desktop-based application which is designed to facilitate the creation, modification, and management of charter party agreements for the maritime industry. It serves as a specialized tool for handling the complex documentation required for shipping contracts, ensuring efficiency, accuracy, and compliance with industry standards.

#### CPE protects:

- Original contract wordings
- Edit fields and cross out non-applicable clauses while keeping them visible

Designed for shipbrokers and their support staff, CPE is simple to use and quick to edit, saving you time and enabling you to work efficiently.

*Over 90 electronic forms are available, approved and issued by recognized industry associations including ASBA, and NSA*

#### Forms include:

- AFRICANPHOS1950
- AFRICANPHOS1950-MOROCCO
- AMWELSH79
- AMWELSH93
- ANVOY2K
- ANVOY99
- ASBACHEMVOY
- ASBATANKVOY

- Risk Assessment
- Voyage Monitoring
- Environment Management
- Dry Dock

### Consultancy Services

- Vessel Database Solutions
- Fuel & Machinery Optimisation (Vessel Telematics)
- Tanker Management Self-Assessment
- Data Analysis Reports & Dashboards
- Customised Development
- Legacy Software Modernisation
- Bespoke Mobile Apps
- Outsourced Development Resources
- API Integration Services

SDSD fleet management software is used by ship managers and owners globally, across all fleet types including tanker, bulk carrier and offshore. Find out more about how SDSD software can improve your vessel performance..

# KEY FEATURES

## Registration Process

CPE utilizes three modes of registration:

- Single PC Registration: Restricts access to a single device
- Domain-based Registration: Grants access across a specific network or domain
- Site License Registration: Allows broader access within an organization

## Drafting New Form

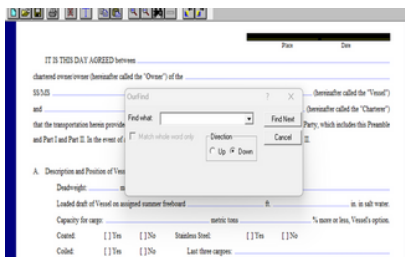

- Create new form with the available template

## Edit Function

- Documents Editing: Protects original contract wording and displays amendments.
- Aligning: Enables positioning of text to the center or to the right.
- Find: Allows searching for specific characters or text within a selected line of documents.
- Edit Display Text Size: Permits user-specific text size adjustment.
- Strike Thru: Applies a strikethrough to selected text.
- To access these editing functions, click on **Edit** at the top left corner.

## Find Function

- Search for specific characters or text within a selected line of documents.

## Insert Function

- Insert a paragraph above or below a particular text line. To access, click the **Insert** button at the top left of the CPE.

## Print Function

- Users are charged credits after each final print.
- Printing is enabled with the installation of the CPE printer (typically the HP LaserJet 4100 series).
