

Enhancing OVMSA & TMSA Audits with MAMS Internal Audit Report

Streamline Your Offshore & Tanker Vessel Audits with MAMS

Ensure seamless safety and compliance with our Internal Audit Report feature designed for Offshore Vessel Management and Self-Assessment (OVMSA) and Tanker Management and Self-Assessment (TMSA).

Why Choose MAMS Internal Audit Report?

MAMS Internal Audit Report is designed to simplify and strengthen your audit process. Here's how it delivers value across your operations:

Comprehensive Audit Tracking – Capture audit details for both Port and Sea, including audit date, status, involved personnel, responsible department, and action status.

Improved Compliance & Efficiency – Monitor closure timelines and attach multiple reference documents to maintain a robust audit trail.

Customizable Element Categories – Define observations and guidance for each category, ensuring detailed tracking of compliance.

Stage Completion & Reporting – Capture each stage of completion and generate detailed reports based on Audit Type, Category, and Elements.

Automated Element Scoring – Calculate Element Scores dynamically based on stage completion, enabling better risk assessment.

Advanced PowerBI Dashboards – Utilize SDSD's PowerBI dashboards to pinpoint audit performance trends, enhance decision-making, and ensure continuous improvement.

Drive Operational Excellence with MAMS

Whether managing offshore or tanker operations, our Internal Audit Report feature helps you stay compliant, improve efficiency, and reduce risks.
